How to use it

Every prompt works in ChatGPT, Claude or Gemini. Replace the text in [square brackets] with your own and send it.

role + task + context + example + format

A good prompt follows the formula **role + task + context + example + format**. All 50 prompts below are already built this way — treat them as templates.

Three rules that instantly improve the result:

1. **Don't rewrite the prompt from scratch** — edit the answer: "shorter", "livelier", "for teenagers".
2. **Give an example:** one sample text changes the whole result.
3. **Check the facts** — AI can be confidently wrong about numbers and dates.

Set up your assistant

1–5

1 An assistant tailored to you

I'm a [profession/occupation], [age] years old, living in [city]. My tasks: [3–5 tasks]. Write briefly and to the point, no fluff, in a casual tone. If a request is unclear, first ask me up to three clarifying questions. Confirm you understand in one sentence.

2 Questions first, then the answer

I want to [goal]. Before you answer, ask me 5 questions that will help make the result as precise for me as possible. Ask them one at a time and wait for my reply.

3 Explain it like I'm 10

Explain [topic] so a schoolkid would get it. Use one real-life example and one analogy. Finish with the 3 key takeaways as a list.

4 Error check

Here's your previous answer. Find factual errors, weak spots and anything you're unsure about. List each one and tell me how to verify it.

5 Photo breakdown

[Attach a photo of a document, receipt, sign or screen.] Explain what it says, highlight what matters and tell me what I need to do next.

Texts and content

6 A month-long content plan

You're a social media strategist. Build a 30-day content plan for [niche/account] on [platform]. Audience: [who]. Goal: [sales/followers/trust]. Table: day, format, topic, first-line hook, call to action. Alternate value, personal and sales posts.

7 Hooks for short videos

Come up with 15 opening lines for Reels/TikTok about [topic]. Each one is up to 8 words and should spark curiosity, debate or recognition. Mark the 3 strongest and explain why.

8 A post in my style

Here are three of my posts: [paste]. Study the tone, sentence length and favorite words. Write a post in the same style about [topic], up to [N] characters.

9 A 30-second video script

Write a script for a 30-second vertical video about [topic]. Structure: hook (2 s), problem, 3 solution steps, call to action. For each shot: what's on screen, on-screen text and voiceover.

10 A thread for Threads or X

Turn this idea into a 7-post thread: [idea]. The first post builds intrigue, the last gives a conclusion and a question for the audience. Each post up to 280 characters.

11 Rewrite a boring text

Rewrite this text so people want to finish it: [text]. Cut the jargon, shorten it by a third, add one concrete example. Show two versions: professional and conversational.

12 Replies to comments

Here are 5 comments under my post: [paste]. Write a short, friendly reply to each that keeps the conversation going. For negative ones — calm and without making excuses.

13 20 content ideas

I run [account] about [topic]. Give me 20 post ideas that [who] will save or send to a friend. Group them by format: checklist, mistakes, story, comparison, opinion.

14 Profile bio

Write 5 bio options for [platform], up to 150 characters. Who I am: [description]. What followers get: [benefit]. End with a call to click the link.

15 Newsletter or announcement post

Write an announcement for [event/product] for an email newsletter or a social media post. Subject line or headline, 3 short paragraphs, a list of benefits, deadline [date] and a call-to-action button. No double exclamation marks and no all caps.

Images

16–23

Work in ChatGPT, Gemini and Midjourney.

16 3D figurine in a box

[Attach your photo.] Turn the person in the photo into a 1:7 scale collectible 3D figurine. The figurine stands on a desk next to a clear window box labeled [name]. Soft studio light, realistic plastic.

17 Product photo for a store

Product shot of [product] on [background: concrete/marble/pastel]. Soft diffused light from the left, a light shadow, 45° angle, plenty of empty space on the right for text. 4:5 format, photorealistic.

18 Video thumbnail

A vertical 9:16 thumbnail for a video about [topic]. A close-up emotion [surprise/joy], bright contrasting background, space at the top for a 3–4 word headline. Style: [cinematic/comic/minimalist].

19 A character for your blog

Create a brand character: [description — age, style, personality]. Show them in three poses on a white background: full body, waist up and close-up. Same face, clothes and style in every shot.

20 Ad banner with text

A square banner advertising [product]. Large text: "[up to 5 words]". Background: [description]. Minimal details, readable in a second, no extra text.

21 Same shot, different style

[Attach a photo.] Redraw this scene in [anime/watercolor/retro poster/3D cartoon] style. Keep the composition, poses and clothing colors.

22 Replace the background

[Attach a photo.] Replace the background with [new background], keep the person and the light on them natural. Add a soft shadow so they look like part of the scene.

23 Brand mood board

Put together a 6-image mood board for a [niche] brand with a [three words] mood. One palette of 4 colors — label them with HEX codes.

Video

24–31

For Veo, Kling and Seedance. The formula that works best: shot description + camera movement + light + sound.

24 Cinematic shot

[Subject] in [place], [time of day]. The camera slowly pushes in from low to high, shallow depth of field, warm golden-hour light. 8 seconds, vertical 9:16, no text in the frame.

25 Bring a photo to life

[Attach a photo.] Animate the scene: a light breeze in hair and clothes, clouds drifting slowly, the camera smoothly pulling back. Don’t change the face or details.

26 Absurd video

Realistic video: a [animal] in a business suit runs a meeting in a glass skyscraper office while employees nod seriously. Documentary-style camera, natural office sounds.

27 A series with one hero

Here’s the hero: [looks, clothes, personality]. Write prompts for 5 short scenes of one story about [plot]. Repeat the hero description word for word in every prompt so they look the same.

28 Faceless documentary

Write a script for a 45-second video “[topic, e.g. what life is like in the world’s most expensive city]”. Split it into 6 shots: a video-generator prompt, voiceover text and the length of each shot.

29 Talking avatar

Write a 30-second script for a talking AI avatar: [topic]. Natural conversational speech, short phrases, mark pauses with “/”. The first line is a hook, the last a call to follow.

30 Trend remix

The [describe the format] format is trending right now. Suggest 5 ways to adapt it to my niche [niche] without copying. For the best idea, write a shot-by-shot script.

31 Before/after transition

A 6-second video: in the first half [object/place] looks ordinary, then smoothly morphs into [new look]. Static camera, the transition exactly in the middle, the final frame holds for 2 seconds.

Voice and music

32–36

For ElevenLabs, Suno and Gemini.

32 Text for voiceover

Rewrite this text for a voiceover: [text]. Short phrases, no brackets or abbreviations, numbers spelled out. Mark pauses with "..." and put stressed words in CAPS.

33 A song for your brand

Genre: [pop/lo-fi/phonk/indie]. Tempo: [fast/medium]. Mood: [three words]. A song about [brand/product] with a catchy 4-line chorus featuring the word "[name]". Up to 60 seconds long.

34 Background music for videos

A 30-second instrumental track with no vocals for short videos about [topic]. Mood: [energetic/calm/mysterious]. A clear beat, building up toward the 20-second mark, an ending without an abrupt cut.

35 Translation for dubbing

Translate the video script into [language] for dubbing: [text]. Keep phrase length roughly the same so the voice matches the video. Adapt jokes and expressions for the local audience instead of translating literally.

36 Jingle and sound logo

Come up with 3 options for a short 3-second sound logo for the [name] brand in a [style] style. Describe the instruments and rhythm so it can be pasted into a music generator.

Business and automation

37–43

37 Customer profile

My product: [description]. Describe 3 types of my customers: who they are, what they fear, what they want to hear and where to find them. For each, one ad line that hits their pain point.

38 An offer that's hard to refuse

Help me phrase an offer for [product] at [price]. Give 5 headline options, a list of benefits instead of features and an answer to the main objection "[objection]".

39 Bot answers for customers

Here's information about my business: [services, prices, address, hours, terms]. Write 15 frequent customer questions with short, polite answers. This will be the knowledge base for a chatbot.

40 Replying to a tough email

A customer wrote: [email]. Write a reply that acknowledges the problem, offers a solution [solution] and keeps the relationship. Tone: calm, without excessive apologies.

41 Automation scenario

I spend time on [routine task], and it repeats [how often]. Suggest how to automate it in Make or Zapier: trigger, steps and where to plug in AI. Explain in plain words, no code.

42 Competitor analysis

Here's a competitor's description or website: [text]. Find 5 strengths, 5 weaknesses and 3 ideas for how I can stand out. Wrap up with a one-sentence positioning statement for me.

43 Business proposal

Write a short proposal for [client] for [service]. Structure: their problem, what I'll do, result, timeline, price [price], next step. No longer than one screen.

No-code websites

44–47

For Lovable, Bolt, Replit or Claude.

44 A landing page in one evening

Build a one-page website for [product/service]. Sections: hero with an offer and a button, 3 benefits, how it works in 3 steps, placeholder testimonials, pricing, FAQ, a request form (name, phone). Style: [minimalist/bold/premium], colors: [colors]. Mobile-friendly.

45 Calculator or quiz

Build a 5-question quiz that recommends [what it recommends] for a customer. At the end, show a result with a description and a “Book now” button. Save the answers to a spreadsheet.

46 Fix a bug

After the last change, [what broke — describe what you see]. Find the cause, explain it in plain words and fix it without changing anything else.

47 Improve the design

Make this website look more premium: more space between sections, one accent color, large headings, one consistent button style. Don’t touch the structure or the copy.

Work and study

48–50

48 Summary of a long document

[Attach a file.] Summarize it: the main idea in one sentence, 5 key points, numbers and dates as a separate list, and what I need to do as a result.

49 A plan to learn anything

I want to learn [skill] in [time frame], and I have [N] minutes a day. Make a week-by-week plan: what to study, which exercise to do and how to check that it worked.

50 Job interview trainer

Run a job interview with me for a [position] role at [company/industry]. Ask one question at a time, wait for my answer and after each one give a short assessment and a tip on how to answer more strongly.

What's next

These prompts are 1% of what AI can do. In the **SINTEZ** course you'll turn them into real results in 4–6 weeks: a content plan, visuals, voiced videos, a chatbot and a website.
